- d) Part C - Requirements for Future Applications - Condition C11 is amended by the inclusion of **bold and underlined** words and numbers and the deletion of the ~~struck-out~~ words and numbers as follows:

C11 Traffic Management

In order to ensure that the capacity of the surrounding external road network in both Queensland and New South Wales is not exceeded, each future project/development application for subdivision **and development of the future school, registered club and child care centre sites** must be accompanied by a detailed traffic assessment in accordance with the RTA's *Guide to Traffic Generating Developments*. The traffic assessment must take into account both the additional traffic from the Cobaki Estate development as well as the cumulative impacts of any new developments in the Tweed Shire and the Gold Coast City Council area.

All traffic assessments undertaken that reveal traffic impacts requiring mitigation on the Queensland road system shall be referred to Queensland authorities for comment. Traffic management works required by the development on the Queensland side of the State's border shall be undertaken in accordance with the requirements of the Queensland authorities and/or deeds with those authorities.

Traffic assessments are to consider the impacts of each future project/development application on internal local roads, including appropriate local road and intersection design for the development.
