Subject: attention: Robert Bisley regarding Moorebank Intermodal
Date: Monday, 4 December 2017 8:40:34 AM

Hello Robert,

I received an email regarding the proposed meeting to be held at Liverpool on the 12th December regarding *Moorebank Intermodal Precinct East Stage 2 and Concept Plan Modification 2 D495-17* at the same time a notification came from RAID outlining a number of GAPS still awaiting answers from previous hearings and not leaving enough time for people to review new facts and finds.

As a resident who is going to be greatly impacted by this monstrosity of a development, that is going to impact my way of life having a 24 hour operation that does not show any sign of consideration to noise especially from the extra number of trains that we grace our once quiet location on the South Sydney freight line.

I urge you to give us a fighting chance and move this meeting to next year 2018 where we have half a chance to be represented by people who care for this great community and can see what a negative impact this will have in our area.

Regards

Jeff Kostrzewa
