Subject: Resource recovery facility meeting
Date: Tuesday, 12 December 2017 9:32:07 PM

A submission to the commission;

1. The council work restriction is 7am to 7 pm yet this facility wants to operate 6am to 10 pm
2. There is already too many large trucks rumbling down Barry Avenue
3. To do a noise assessment of the truck noise impact in the middle of the day is ridiculous
4. Where are all these extra trucks going to park while waiting to offload. There is no parking in Hearne street. No doubt they will clog up other surrounding street like Anderson and Barry

Regards
Rob Leplaw
