Hello PAC the lack of appreciation of the traffic chaos pursuant to an approval of a Moorebank Intermodal Freight Terminal demonstrates clearly the corrupt nature of the approval process as raised by the chairman of the East Liverpool Progress Association Mr Michael Byrne. I wish to see the participants of PAC prosecuted under NSW anti corruption legislation and want the members of PAC committee to be tried as persons advocating ill health in the Australian Community in NSW working against the best interests of NSW as they pursue an unhealthy and corrupt Moorebank Intermodal Approval Process in accordance with the secretive bidding of Government. Please refer this correspondence to ICAC NSW and the NSW EPA, in addition the NSW Parliament leader of the House lower and upper houses.

Please publicise ASAP this unfolding situation to demonstrate how Australian Families are being exposed to unhealthy outcomes to suit economic aims of a corrupt government..

Best Regards

Roy Carter
